Dear Madam,

Following our review of your file, we are pleased to issue the enclosed certificate of conformity, in both French and English. Please verify that the information found on the certificate is accurate and notify us if any corrections are required.

Products that are compliant should be distinguishable from ordinary products. As such, the Bureau de normalisation du Québec (BNQ) has registered a mark of conformity that is exclusive to certified products. This mark of conformity shall therefore be used according to the requirements of the program, and only for the products we have ensured comply with the requirements of the above-mentioned standard.

Note that a list of certified businesses is available on our website [www.bnq.qc.ca].

We are proud to have you as a client and to see your business join the ranks of many outstanding enterprises.

We trust that you will find everything to your satisfaction.

Best regards,

Benoit Houde, P.Eng.
Program Leader
